Recode DVD

In this tutorial you can follow the step by step procedure for recoding a video in Nero Recode.

The following requirements have to be fulfilled:

- You have started Nero Recode.
- You have inserted a DVD into your drive.

To recode a video, proceed as follows:

- 1. Select the Recode an Entire DVD to DVD task in the Nero Recode start screen.
 - → The My DVD Backup screen appears.
- 2. Click the Import DVD button.
 - → The Find Folder dialog box opens.
- 3. Select the drive which has the DVD in it and click the OK button (e.g. F:\ drive).
 - The DVD is analyzed and imported. The capacity bar on the bottom of the screen displays how large the imported files from
 - the DVD will be. If the source DVD is larger than the target medium then the middle section of the **DVD-Video Files** tab displays how the DVD can be recoded to match the selected profile.

DVD-Video Files Data	Fies				7
ontent	Duration	Size		Video Quality	Dimport DVD
DVDVolume					O Deabla
🗄 🗀 Main Movie	00:54:43	1.866 MB		100,0%	Usable
					Lock Ratio
00		Audio 🛄 Subti	tle 🤳 Info		
	Track			Size	
		1. Dolby Digital 5.	1-ch English	178 MB	Fit to target:

My DVD Backup screen

- 4. Make sure that the Fit to Target check box is selected and choose the desired target format in the drop-down menu (e.g. 8cm DVD [1.4GB])
 - → The contents of the source DVD are then recoded to fit the target format selected in the drop-down menu Fit to target.

DVD-Video Files 📄 Data	Files					
ontent	Duration	Size		Video Quality	Dimport DVD	
🖻 DVDVolume 🖩 🚞 Main Movie	00:54:43	1.392 MB	0	71,6%	Dsable	
		Audio O s. H	un itte			
000	Track			Size	7	
	E	1. Dolby Digital	5.1-ch English	178 MB		
					Fit to target:	
					8 cm DVD [1.4 G8]	

My DVD Backup screen with adjusted target format.

If the **Fit to Target** check box is not selected, the DVD-Video is imported in its original size. In this case the volume of data can be so great that it can only be burned onto a double-layer DVD or saved on the hard drive.

- **5.** Click the **Next** button to define the burn settings.
 - → The **Burn Settings** screen appears.
- 6. In the Target drop-down menu, select the drive on which you want to burn (e.g. F:\ drive).
- 7. Click the **Burn** button to start the burn process.
 - ➔ The burn process begins.
 - The **Recoding and Burning** screen is displayed and you can follow the burn process with the progress bar.
 - → The Waiting for Disc window is opened.
- 8. Please insert empty, writeable disc
 - → The burn process is complete when the relevant message appears in the information window.
- 9. Decide if you want to save a log file of the burn process.
 - You have recoded a DVD and burned it. You can now go back to the burn settings and burn the compilation again. The Next button leads you to the What would you like to do now? screen. There, you can select further options or end Nero Recode.
