Creating a Slide Show

In this tutorial you can follow the step-by-step procedure for producing a Nero Nero MediaHub slide show.

To produce a Nero Nero MediaHub slide show, proceed as follows:

1. Click the **Videos** library entry in the navigation tree on the left.
 - The video browsing screen is displayed in the stack view.
2. Double-click the stack that contains the videos you want to add to your slide show.
3. Click the **Create Slide Show** button on the lower task bar.
 - A window is opened.
4. Enter a name for your new slide show in the input field and click the **OK** button.
 - The new slide show is displayed in the **Slideshow** screen. The thumbnail strip shows all items you selected. You can navigate through the items of the thumbnail strip using the ◀ and ▶ buttons
5. If you want to add more items to the slide show:
 1. Click the **Add photo and video to the slide show** button.
 - The **Add files to slide show** window is opened.
 2. Click the stack that contains the photos you want to add to your slide show.
 3. Click the **Add** button.
 4. Click the **Close** button.
 - The photos or videos are added to the end of the slide show.

Personalize Slide Show screen

6. Click the **Themes** button in the **Personalize Slide Show** area on the left of the **Slide show** screen.
7. Choose a template on the left of the **Themes** tab.
8. Click the **Titles** tab.
9. Add your desired text for the intro title into the **Opening title** input field.
10. Click the **Music and Duration** tab.
11. Move the slider in the **Volume mixer** area. If you do not move the slider, both **Original** and **Music** have the same audio level.
 - ➔ You created a slide show. You can now start the playback or publish your project.
