

# How To Add/Edit Price Setting (Must Use Internet Explorer!)

- I. Normal Price (Per Hour)
- II. Package Hour (2 Hours above)
- III. Topup Freebies (Topup Promotion)
- IV. How to edit freebies promotion?

## I. Normal Price (Per Hour)

The screenshot shows a web application interface for setting normal prices. On the left is a sidebar menu with options like 'Return to Home', 'Wizard', 'Basic Config', 'Operator', 'Bar Info', 'Level Config', 'PC Info', 'Price', 'Normal Price', 'Promotion', 'Topup Freebies', and 'Package'. The 'Normal Price' option is highlighted. The main area displays a grid for selecting days and hours. The grid has columns for hours (0-23) and rows for days (Monday to Sunday). A red box highlights the 'Normal User' and 'Member' tabs, and another red box highlights the grid area. A red arrow points from the grid to a pop-up dialog box titled 'Set the price - Google Chrome'. The dialog box contains the following text: 'Please enter the price', 'From: DayM To: DayM', 'From: 0:00 To: 0:59', a text input field containing '2.00', 'Applied to all PC  All member level ', 'Note: Negative figure entered means check in disallowed', and 'Confirm' and 'Canceled' buttons.

Use the mouse pointer pull the time and day you want, and then the box will pop up, and input the price.

For example in this picture:  
Monday to Friday RM2 per hours.

## II. Package Hour (2 Hours above)

**Return to Home**
