### I.How to stock in from cashier?

The screenshot displays the e2links software interface. The main window is titled "Product Sales Management - e2links Billing" and has the "Stock In" tab selected. The interface includes a menu bar with options like Sales, User Purchase Items, Product Return, Free, Point Redemption, and Record Search. The "Stock In" tab contains the following fields and controls:

- Code: [ ] Select Product [ ]
- Product: Idle
- Type: Idle
- Quantity: Idle
- Price: 0.00 RM(?)
- Stock In: 1 Unit
- Total Price: 0.00元
- Note: Do not put the price if goods already paid!
- Synchronize Product button
- Add List and Delete List buttons
- Product Name, Product Code, Unit, Stock In Qu., Total Amount, Stock Quan... table
- Idle label and Stock In(S) button

The background shows a user management table with columns for User ID, Level, Balance, Active Time, PC, Area, Start Time, Used, Spend, Purchas..., Total A..., Topup Records, Name, and NRIC. The status bar at the bottom indicates system metrics and the current user's on-duty time.
